To the hiring committee

Thank you for the opportunity to apply for the Design Director role at AXIOS. I have extensive experience creating engaging editorial experiences and developing successful new revenue products based on those experiences. I would be excited to bring my deep knowledge and expertise to AXIOS.

At Vox Media, I designed and prototyped the initial product that became the Concert ad platform, generating over \$200 million in annual revenue and reaching more than 90% of the online audience in the U.S. This work was crucial to Vox Media's financial stability. It was an audience-first project, where I collaborated across editorial design, revenue products, and CMS architecture to deliver high-quality results at every level. An informed population is essential for a functioning society, and ads are an affordable way to achieve that. I am passionate about creating high-quality, reliable media experiences for people, and I hope to bring this passion to AXIOS.

Warm regards,  
Scott Kellum
