To the hiring committee

Thank you for the opportunity to apply for the Product Designer role at Descript. I have extensive experience leveraging design systems to work through complexity in companies of all sizes.

At Mariana Tek, I optimized complex workflows and interactions by leading a design system initiative across two teams, implementing more consistent and useful components. These updates boosted development speed and product consistency, delivering greater value to our customers. At EL Education, I developed a comprehensive design system focused on accessibility and visual appeal, supporting over 15,000 pages of diverse content and media.

I am passionate about creating high-quality and intuitive experiences for people, and I hope to bring this passion to Descript.

Warm regards,
Scott Kellum
