To the hiring committee

Thank you for the opportunity to apply for the role of Senior Product Designer, Ads Platform at Netflix. I have extensive experience in creating innovative ad products and driving profitability at scale, and I am eager to bring that expertise to Netflix. Ads are a cost that everyone can afford, and I am excited about the potential of new revenue models to make Netflix more accessible to all. I aim to leverage my leadership in this area to help Netflix succeed.

At Vox Media, I took the initiative to create a new high-impact ad product that revolutionized the company's business and led to the Concert ad platform. As a principal product designer, I continued to lead the design of revenue products, helping to scale Concert to over 80 partners, reach over 90% of the online audience in the U.S., and drive over \$200M YoY in revenue. I achieved this by scaling the platform and diversifying our product catalog, empowering our clients and internal teams to work more efficiently with client creative.

Netflix is an incredible entertainment powerhouse. I am excited about the growth potential that advertising can provide in bringing your services to everyone and offer my expertise in designing new revenue products that deliver value for both the advertiser and the viewer

Warm regards,
Scott Kellum
